

Office Glass Door Fingerprint Smart Lock

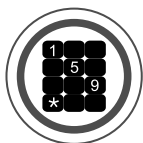

No : Software / Drilling / Wiring / Network

Easy : Operate & install

Fingerprint

Password

Card Identification

Remote Control

Door Bell

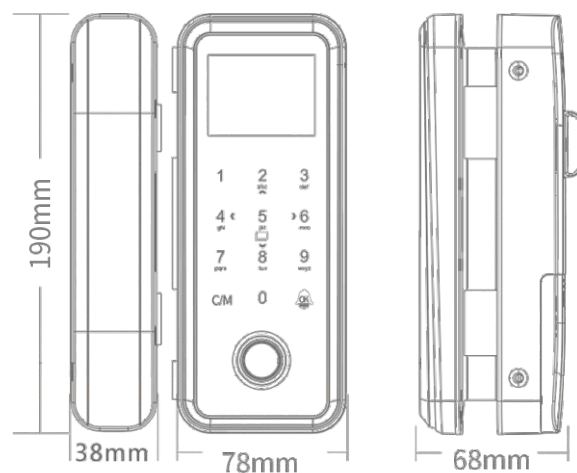

Features:

- ◆ Identification Type: Fingerprint, PIN, Card and Remote Control.
- ◆ Double authentication: With fingerprint encryption and dual-fingerprint combination of open the door to ensure double security.
- ◆ Leading algorithm: Leading fingerprint algorithm, mature and stable.
- ◆ Touch keyboard: Capacitive touch key and LED back light, smart and durable, easy to operate.
- ◆ Induction power: Identification speed is less then 1second.
- ◆ Low voltage warning.
- ◆ Time Attendance: No software requires with Excel attendance reports download and upload.

Product Parameters:

Technical parameters:

Storage capacity	Applicable door thickness	Working voltage	Operating temperature
300	10-12mm	4 Pieces of 1.5V alkaline batteries	-25℃-65℃
Emergency Interface	Working hours	Working environment temperature	Working Current
USB(Interface Voltage DC5V)	≥25000 s	5-95% RH(no condensation)	Dynamic Power Consumption<200mA Static Power Consumption<55A
Sensor	DPI	Size	Operating humidity
Capacitive	>560	190X78X68mm	Single door/Double door
