Brief Introduction

NG-C2100 is a premium pan & tilt camera for indoor home security. With its simple plug-in installation and smart core inside, you'll have peace of mind in no time. Place one in the living room to track your playful pets, another in the kid's room to watch over the little baby. It comes with all the features to keep you connected to home and cover every corner of the house day and night.

With the powerful NGTeco Home App, you can check your home anytime with FHD live video, speak to anyone there with two-way talk, receive real-time notifications when detecting motion, and review the recent activities with local or cloud storage. More importantly, you can enjoy hands-free home monitoring with voice commands when paired with a compatible Amazon Echo or Google Nest device.

NG-C2100 will be a wise choice for living room and kid's room; it creates a safer, smarter, and more convenient lives.
